

PRICE LIST

from 1st April 2020

Our price list is structured in sections to give you a clear view of the potential steps in your treatment and the associated costs, to allow you to make informed financial planning.

Payment for consultations, blood tests and investigations will need to be settled prior to or at the time of these appointments.

You will be required to pay the full cost of the treatment prior to your nurse planning appointment.

STEP 1: CONSULTATION AND INVESTIGATIONS

Before we can recommend a treatment pathway you will need to have a consultation with a doctor and may need a combination of investigations. This will allow us to plan the best treatment journey for you.

Fertility Assessment Package (AMH, Vitamin D, Thyroid Function Test, Ultrasound scan with antral follicle count and full consultation)	£400
Comprehensive Fertility Assessment package as per Fertility Assessment Package plus: a semen analysis and HyCoSy if required	£550
Fertility Assessment package for same sex female couple (2 x AMH, Vitamin D level, Thyroid function test, 2 x AFC scan and full consultation)	£550
Initial Consultation	£225
Follow-Up Consultation	£120
Pre-Treatment trans-vaginal scan including antral follicle count and uterine assessment	£175
Semen Analysis	£190

STEP 2: TREATMENT PACKAGES

Below you will find our treatment packages, which will form the base of your fertility treatment. Each treatment package includes:

- nurse planning appointment
- counselling
- HFEA fee
- blood tests for HIV, Hep B and Hep C
- monitoring bloods and ultrasound scans during the treatment cycle
- 1 review consultation or early pregnancy scan.

Prices for Pre-Implantation Genetic Testing are available on the Genetic Testing price list.

REFUND INFORMATION

Occasionally treatments do not go ahead or are discontinued at some point due to medical reasons. If this happens, you will be eligible for a partial refund, depending on the stage at which the treatment is stopped. The amount you will be refunded is outlined below depending on what treatment you had and at what point your treatment stopped.

Type of Cycle	IVF*		Egg Freezing	Embryo Freezing		FET		Egg Thaw		Egg Donation (anonymous)	
	Essential £4,029	Essential Plus £4,985		Essential £4,674	Essential Plus £5,284	Essential £1,911	Essential Plus £2,032	Essential £3,644	Essential Plus £4,012	Essential £7,605	Essential Plus £8,561
Cancelled before medication is started	£3,626	£4,586	£3,513	£4,207	£4,861	£1,682	£1,788	£3,207	£3,531	£6,935	£8,064
Cancelled after 1 treatment scan	£3,425	£4,387	£3,318	£3,973	£4,650	£1,299	£1,422	£2,478	£2,808	£6,549	£7,713
Cancelled after more than 1 treatment scan but before egg collection	£3,102	£4,088	£3,005	£3,599	£4,333	£1,299	£1,422			£5,933	£7,187
No eggs recovered following egg collection	£927	£1,944	£898	£1,075	£2,061					£6,935	£8,064
No embryo Transfer	£282	£947				£287	£427	£547	£843	£539	£1,665
Cancelled IUI prior to insemination											£700

*If you are having an IVF cycle and your embryo transfer is cancelled because you are at risk of hyperstimulation syndrome (OHSS), you embryos will be frozen and you will be offered a frozen cycle (FET) once you have recovered from the OHSS. You will be asked to pay for freezing your eggs or embryos but not for a subsequent Frozen Embryo Transfer cycle (FET)
